# ICE announces extension, new employee guidance to I-9 compliance flexibility

WASHINGTON – U.S. Immigration and Customs Enforcement (ICE) today announced an extension of the flexibilities in rules related to Form I–9 compliance that was initially granted last year. Due to the continued precautions related to COVID–19, the Department of Homeland Security (DHS) will extend this policy until May 31, 2021.

The current extension includes guidance for employees hired on or after April 1, 2021, and work exclusively in a remote setting due to COVID-19-related precautions. Those employees are temporarily exempt from the physical inspection requirements associated with the Employment Eligibility Verification (Form I-9) until they undertake non-remote employment on a regular, consistent, or predictable basis or the extension of the flexibilities related to such requirements is terminated, whichever is earlier.

On March 19, 2020, due to precautions implemented by employers and employees associated with COVID-19, DHS announced that it would exercise prosecutorial discretion to defer the physical presence requirements associated with the Employment Eligibility

Verification (Form I-9) under section 274A of the Immigration and Nationality Act. This policy only applies to employers and workplaces that are operating remotely. If there are employees physically present at a work location, no exceptions are being implemented at this time for in-person verification of identity and employment eligibility documentation for Form I-9, Employment Eligibility Verification.

# For more information, please see the March 2020 guidance.

Going forward DHS will continue to monitor the ongoing national emergency and provide updated guidance as needed. Employers are required to monitor the DHS and ICE websites for additional updates regarding when the extensions will be terminated, and normal operations will resume.
