Statement on false reporting of an ORR contract with Burke Law Group

We appreciate ORR's confidence in Burke Law Group's ability to consider the possibility of overseeing a network of highly qualified immigration experts to serve the best interests of unaccompanied minors in a humanitarian crisis. We were approached by the Trump administration to fill a gap in legal services and we were considering how we might help.

Certain outlets misreported from the start that we had a received a \$150 million contract when we were in fact only considering applying for a small portion of that amount under a grant to help address the humanitarian crisis. We have decided not to apply for a grant or a contract and we withdrew from consideration.
