## SUPPORTING STATEMENT A – JUSTIFICATION

### Summary

This request is for revisions to the forms currently approved under OMB #0970-0554 and to add four new forms under this OMB number. All instruments will be incorporated into ORR's new case management system, UC Path. Details about the changes are described in section A15.

#### **1. Circumstances Making the Collection of Information Necessary**

The Homeland Security Act (HSA), 6 U.S.C. 279, transferred responsibilities for the care and placement of unaccompanied children (UC) from the Commissioner of the former Immigration and Naturalization Service (INS) to the Director of the Office of Refugee Resettlement (ORR).

The *Flores v. Reno* Settlement Agreement, No. CV85-4544-RJK (C.D. Cal. 1996), establishes an order of priority for sponsors with whom UC should be placed and sets minimum standards for the release, housing, services, transportation, and discharge of UC. *Flores* also entitles Plaintiffs' counsel to visit ORR facilities.

The William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (TVPRA), 8 U.S.C. 1232, creates additional requirements for the placement, services, and discharge of UC in federal custody. The TVPRA also directs ORR to create policies to ensure UC are protected from traffickers and others seeking to victimize them or otherwise engage them in criminal, harmful, or exploitative activity.

ORR's Interim Final Rule on the Standards to Prevent, Detect, and Respond to Sexual Abuse and Sexual Harassment Involving Unaccompanied Children, 45 CFR Part 411, sets forth such standards for ORR care provider facilities that house UC in accordance with section 1101(c) of the Violence Against Women Reauthorization Act of 2013, Pub. L. 113-4 (VAWA 2013).

ORR's UC Program provides care and custody for UC until they can be safely released to a sponsor, repatriated to their home country, or obtain legal status. ORR funds residential care provider facilities that provide temporary housing and other services to UC in ORR custody. Care provider facilities are State licensed, with the exception of temporary influx care facilities, and must meet ORR requirements to ensure a high-level quality of care. Services provided at care provider facilities include, but are not limited to, education, recreation, vocational training, acculturation, nutrition, medical, mental health, legal, and case management.

The instruments in this information collection directly relate to the care of UC for processing pursuant to the Paperwork Reduction Act. These instruments allow ORR to place UC referred to ORR by Federal agencies into care provider facilities and to transfer UC within the ORR care provider network. The instruments are:

- Placement Authorization (Form P-1)
- Authorization for Medical, Dental, and Mental Health Care (Form P-2)

\*These instruments are new additions under this OMB #.

### **3. Use of Improved Information Technology and Burden Reduction**

ORR is in the process of developing a new case management system which will streamline information management by consolidating UC information from disparate storage locations, reduce manual paperwork processing conducted outside of the system (e.g., spreadsheets, PDFs, Word documents), maximize the use of auto-population so that information is not entered more than once, enforce business rules through automated workflow management, and improve business intelligence capabilities by automating reporting and data analytics. All of the instruments in this collection will be incorporated into the new system when launched.

### **4. Efforts to Identify Duplication and Use of Similar Information**

The information being collected by these instruments are not obtainable from other sources.

### **5. Impact on Small Businesses or Other Small Entities**

The proposed information collections will not burden or impact small businesses.

### **6. Consequences of Collecting the Information Less Frequently**

Not collecting the information requested in these forms would impede ORR from performing its charged duty of accepting referrals from Federal agencies within 72 hours and placing UC in the least restrictive setting. Furthermore, all grantees funded to provide services to these children are required in writing to comply with all of ORR's program policies, procedures, and guidance, which includes collecting the information in these instruments.

### **7. Special Circumstances Relating to the Guidelines of 5 CFR 1320.5**

None of the characteristics outlined in 5 CFR 1320.5(d)(2) apply to the instruments in this collection.

### **8. Comments in Response to the Federal Register Notice and Efforts to Consult Outside the Agency**

In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR Part 1320 (60 FR 44978, August 29, 1995), ACF published a notice in the Federal Register announcing the agency's intention to request an OMB review of this information collection activity. This notice was published on January 19, 2021, Volume 86, Number 11, pages 5196-5199, and provided a sixty-day period for public comment. During the notice and comment period, responses were received from four commenters, each containing multiple comments. Attachment A provides a summary of those comments and ORR's responses.

## 9. Explanation of Any Payment or Gift to Respondents

No payment or gift to the respondents will be provided.

## 10. Assurance of Confidentiality Provided to Respondents

ORR established a system of records to ensure the level of confidentiality pursuant to the Privacy Act, 5 U.S.C. 552a. ORR's system of records notice was published on July 18, 2016 at 81 FR 46682.

## 11. Justification for Sensitive Questions

Sensitive information may be collected in these instruments in order for ORR to make informed placement decisions that ensure all UC are placed in the least restrictive setting that meets their individual needs. ORR does not ask for any information of a sensitive nature beyond what is needed to make appropriate placement decisions.

## 12. Estimates of Annualized Burden Hours and Costs

Estimates used to calculate burden are based on the following factors:

- FY2021 projections for referrals to ORR custody, transfers within the ORR care provider network, and discharges from ORR custody.
- ORR funds approximately 216 care provider grantees, including approximately 30 long term foster care programs and 15 restrictive placement programs.
- The cost to respondents was calculated using wage data, accessed in March 2020, for the Bureau of Labor Statistics (BLS) job code 21-1021 Child, Family, and School Social Workers in the industry of Other Residential Care Facilities. The rates were multiplied by two to account for fringe benefits and overhead –  $\$19.21 \times 2 = \$38.42$

No additional costs will be incurred by the Federal government for developing computer systems or storing the instruments as those systems are already in place. The hourly rate was multiplied by two to account for fringe benefits and overhead.

## 15. Explanation for Program Changes or Adjustments

A. ORR revised all 13 instruments currently approved under OMB #0970-0554, all of which will be incorporated into ORR’s new case management system, UC Path. Five of the instruments contain revisions to the formatting, organization, or wording of field labels with no changes to the content. The remaining eight instruments contain changes in content. In addition, ORR proposes to add four new instruments to this collection that will also be incorporated into UC Path. Finally, ORR plans to replace the term “unaccompanied alien child (UAC)” with “unaccompanied child (UC)” throughout the instruments in this collection. Note that the screenshots of UC Path instruments attached to this package do not reflect this change because it has not yet been developed in the system. However, the revision in terminology will be made before the system is launched.

- **Placement Authorization (Form P-1):** ORR revised the formatting, but no changes were made to the content. The average burden minutes per response was increased from one to five minutes.
- **Authorization for Medical, Dental, and Mental Health Care (Form P-2):** ORR revised the formatting, but no changes were made to the content. The average burden minutes per response was increased from one to five minutes.
- **Notice of Placement in a Restrictive Setting (Form P-4/4s):** ORR revised the formatting, but no changes were made to the content.

- **UC Referral (formerly titled Intakes Placement Checklist and Add New UC) (Form P-7):** ORR combined two of its current instruments, *Intakes Placement Checklist* and *Add New UC*, into one instrument. The average burden minutes per response was increased from 15 to 60 minutes, plus an additional 30 minutes if the placement checklist must be completed. In addition, ORR made the following revisions:

- Moved the “Immigration Status at Referral” field to the *UC Profile* instrument.
- Created a new “Parent/Legal Guardian Separation” section. This section contains five fields, and replaces the single question on the current version of the *Add New UC* instrument.

- Added a new “Documents” section where documents related directly to the UC’s referral may be uploaded.
- Added a new “Entry Team” section in which read and/or write access can be granted to individuals who need access privileges to the record, but do not typically need such privileges for a referral record.
- Revised the *Intakes Placement Checklist* as follows:
  - Reorganized the checklist into distinct sections for staff secure and secure placement criteria.
  - Removed “UC will be turning 18 year of age in the next month” as an escape risk criteria.

- **Program Entity (formerly titled UC Portal Capacity Report)(Form P-12):** ORR greatly expanded this instrument to track multiple types of information related to care provider programs. The average burden minutes per response was increased from five to 30 minutes. In addition to bed capacity, this instrument contains the following information:
  - An overview of the program that includes name, status, parent entity, type, address, region, and acceptable placement types
  - Various program points of contact
  - Stakeholder information (child advocate program, legal service provider, field office juvenile coordinator (FOJC))
  - Information related to the program’s State licensing agency and licensing status
  - Information related to the program’s Administration for Children and Families grant
  - Fields tracking the reason and dates of stop placements, if applicable
  - Information related to the program’s ORR monitoring schedule
  - Sections that list all events and incident reports created for the program (cleared as separate instruments in OMB #0970-0547)
  - Census information and the ability to initiate prescreening for transfers to influx care facilities (cleared as *Influx Transfer Manual and Prescreen Review* in this collection)
  - An area to add individuals to the program’s team (e.g., assigned Federal Field Specialist, Project Officer)
  - An area to upload document relation to the facility and its operations and/or compliance
  - An auto-populated capacity dashboard to track available beds.
- **UC Profile (formerly titled Add New UC) (Form P-13):** Previously, the purpose of this instrument was to 1) create an initial profile and 2) receive/process referrals. The function of receiving/processing referrals and the related fields from the *Add New UC* instrument were moved to the *UC Referral* instrument, as noted above in the description of changes for *UC Referral*. The function of creating an initial profile in the system and related fields containing basic UC information remain with this instrument. However, this purpose of this instrument has been expanded. It now acts as a hub where users can assess all records related to a UC’s case. Most of the records accessible from the UC Profile are being cleared as separate instruments, either in this or another one of ORR’s information collections. The sections being cleared under this instrument are as follows: Profile Information, Program Designation, Legal-Immigration, Legal-Administrative, System Information, Apprehended Relationships, Other Relationships, Adult Contact Relationships, Entity Team, and Documents. The average burden minutes per response was increased from 15 to 45 minutes.
- **ORR Transfer Notice – Notice of Transfer to ICE Chief Counsel – Change of Address/Change of Venue (Form P-14):** ORR revised the formatting, but no changes were made to the content.

- **Family Group Entity (Form P-15):** This is a new instrument that ORR plans to add to this collection.
  - **Influx Transfer Manifest (Form P-16):** This is a new instrument that ORR plans to add to this collection.
  - **Influx Transfer Manual and Prescreen Review (Form P-17):** This is a new instrument that ORR plans to add to this collection.
- B. ORR plans to remove the term “alien” from the title of this information collection and revise it to read “Placement and Transfer of Unaccompanied Children into ORR Care Provider Facilities.”
- C. ORR intends to conduct a phased rollout of the UC Path system. Beginning September 2021, ORR plans to roll the UC Path system out to a small group of care provider programs. ORR will gradually expand use of the system to other programs and expects all care provider programs will be using UC Path by Spring 2022. To ensure continuity of operations, care provider programs will need the ability to continue using instruments in the UC Portal system and in other formats (e.g., PDF, Excel) while they are waiting to transition over to the UC Path system. Therefore, ORR requests OMB’s approval to continue use of the following instruments, concurrently with the UC Path versions of the same instruments until all care provider programs are using UC Path. Although all care providers are expected to be using UC Path by Spring 2022, ORR requests approval to continue using these instruments for up to one year to account for any unexpected technical issues that may arise during rollout. These versions were last approved by OMB on March 10, 2021.
