Good morning,

This notice serves to inform you of changes to the CBP One™ application, which will directly impact its current functionalities used by some undocumented aliens seeking to request appointments to present at a southwest border port of entry.

Undocumented aliens will no longer be able to use the CBP One™ application to submit biographical information or schedule appointments at the eight ports of entry along the southwest border. Existing appointments scheduled through the CBP One™ application will no longer be valid as of January 20, 2025 at 12:00pm Eastern Time.

CBP will provide additional information as it becomes available.
